**Do you often question your parenting decisions? Is there a roadmap to raising successful children?  
Do you wonder why your child's behavior has suddenly changed?**

This 2-part parenting series will answer these questions and more by increasing your understanding of your child's physical and mental development and temperament, helping you create a home environment where your child can thrive, and providing you with tips and techniques to support the healthy development of your child. You will leave feeling more confident as a parent, with a better understanding of who your child is and ideas you can use to support your child's development with items you already have in your home.

**Registration Information:**

- Registration is required by emailing [cpcmecasld@verizon.net](mailto:cpcmecasld@verizon.net) or by calling 617-696-2262. You will receive a confirmation phone call or email.
- Free childcare will be provided and **must be** reserved at registration.
